Re: Homemakers Community Recycling
The Chapel,
The Old Workhouse,
Union Rd West,
Abergavenny,
NP7 7RL

I am writing on behalf of Ty Gwyn Hall Independent Hospital to support the application for Homemakers Community Recycling to replace its existing roof.

As a Forensic Rehabilitation Hospital with patients who have various mental health issues, we have found over a 10 year relationship the service provided is invaluable to their rehabilitation. Over the years myself and other members of Ty Gwyn have visited Homemakers and have been immensely impressed with the service provided to the general public. Homemakers offers a valuable recycling facility to Monmouthshire residents and helps meet Monmouthshire County Council's waste reduction figures. We have also noticed how important the facility provided for residents who wish to purchase low cost furniture is to the community. I am also aware of other organisations who rely heavily on Homemakers to provide volunteering opportunities.

I therefore hope this letter helps to support the case for Homemakers Community Recycling to be awarded financial support to replace its roof and maintain an excellent facility that is invaluable to the whole community of Monmouthshire.

Yours Sincerely
